## ANNUAL OPERATING PLAN

**This Plan is between the USDI Bureau of Land Management (BLM) High Desert District, USDA Forest Service (USFS) Medicine Bow/Routt National Forest and Thunder Basin National Grasslands, USDI Fish and Wildlife Service, Wyoming State Forestry Division (WSFD), Albany County, and Albany County Fire District #1.**

**All Federal Agencies, State, and County may hereinafter be jointly referred to as the “Agencies.”**

### A. AUTHORITY

Wyoming Interagency Cooperative Fire Management Agreement, NUMBERS 07-FI-11020000-018, 07-FI-11046000-017, USDI Bureau of Land Management #KAA020003, USDI National Park Service #H1249070030, USDI Bureau of Indian Affairs #AG7C500699 and the USDI Fish and Wildlife Service #14-48-60139-07-K001.

### B. PURPOSE

To outline details of implementing the Wyoming Interagency Cooperative Fire Management Agreement and the Wyoming Interagency Fire Management Agreement.

### C. FIRE PROTECTION RESPONSIBILITIES & PRIORITIES:

1. Wildland Urban Interface
  - On fires that threaten, or involve, the Wildland Urban Interface, the respective County’s Community Wildfire Protection Plan **and Federal Agency Fire Management Plans** shall be referred to for suppression priorities and other information that could prove beneficial to the suppression efforts.
  - The local fire service authority is responsible for developing structure protection/defense plans and coordinating with the incident management team to implement the plan. This could include the local fire service authority preparing the plan themselves or working with the incident management team to obtain resources to prepare and implement the plan.
2. Reimbursable Fire Protection Services
  - The entire county is considered as a reimbursable fire protection zone.
  - After the maximum eight (8) hours of reciprocal protection, if not released by the protecting agency or when assistance is requested, all suppression actions are reimbursable.
  - After eight (8) hours, the protecting agency will either release or request the assistance of the other agency. If released within the eight (8) hour period, there is no reimbursement to either agency.

3. Reciprocal Fire Protection (Mutual Aid)
- The entire county is considered as a reciprocal Initial Attack Fire Protection Zone for the first eight (8) hours of an incident.
  - The USFS and the BLM will participate with Albany County in all of Albany County.
  - The protecting agency will be determined as soon as possible. All fires will be reported to the protecting agency.
  - An Agency/County may take initial attack action in support of the Protecting Agency.
  - Under no circumstances will Assisting Agencies be required to deplete local resources in order to honor a Mutual Aid request.
  - The Protecting Agency will not be required to reimburse the Assisting Agency for costs incurred following the initial dispatch of any resources for the duration of the Mutual Aid period.
  - Reciprocal protection is not construed as an automatic eight (8) hour dispatch. Therefore, priority will be given to the release of a supporting agency when it is mutually agreed upon by the initial attack forces that the fire situation is such that the Protecting Agency's forces on the scene can adequately control the incident. Furthermore, within its capabilities, the Protecting Agency will render support to the Supporting Agency to include, but not limited to, food, water, and additional forces to expedite release of the Supporting Agency in advance of the maximum hour reciprocal fire protection.
  - **Each responding unit will immediately notify the Casper Interagency Dispatch Center (CPC - 1800-295-9952). In the event CPC cannot be contacted, Black Mountain Lookout should be contacted and given report time of attack. Black Mountain Lookout will assure all information is relayed to CPC.** Land ownership will be determined **immediately upon** initial attack. Dispatching of county crews will be **approved** by the County Fire Warden or Zone Warden.

ALBANY COUNTY is divided into two reciprocal fire suppression authorities:

- a. The Southern Zone includes all land within Albany County Fire District No. 1.  
Special Considerations – Southern Zone
- b. The Northern Zone includes all lands throughout the northern half of Albany County outside of Fire District No 1.  
Special Considerations – Northern Zone
- Notification of county crews will be by LARC the Zone Warden or County Fire Warden. Black Mountain Lookout may help in the notification process.
  - Each responding unit will notify the Black Mountain Lookout and report time of attack for relay to the appropriate dispatch center.

4. STATE LAND

Initial suppression action on State Land will be taken by the County within their capability. This initial action will be reported promptly to the Wyoming State Forestry Division (see directory).

**Initial Attack on State Land in-holdings within the National Forest will be handled cooperatively by the USDA Forest Service and local resources with initial action reported to the State Forester as soon as possible for further instructions.**

5. OFFSET OR EXCHANGE

6. PROTECTION AREA MAPS

See Exhibit A in the Wyoming Mini Fire Mobilization Plan.

D. SPECIAL MANAGEMENT CONSIDERATIONS:

**Heavy equipment will not be used on any lands without authorization and approval by the Land Use Owner/Agency.**

E. WILDLAND FIRE SUPPRESSION PROCEDURES:

1. NOTIFICATION AND REPORTING

- All wildfires and initial action will be reported promptly to the protecting agency and further instructions agreed upon. Upon notification, if the protecting agency fails to properly recognize and claim ownership, suppression costs for the protecting agency's proportionate share will be assessed them upon discovering and proof of ownership by the supporting agency.
- **All fires, initial action, and fires which may threaten BLM Lands will be reported immediately to the CPC. Effective and continuous coordination will take place between Albany County 911 Dispatch and CPC.**
- **For all wildland fires on or threatening State land, or on private lands, please call CPC:**

**Casper Interagency Dispatch Center 800-295-9952  
(Fires within one mile of BLM land are considered a threat to BLM.)**

**Rawlins Dispatch Center 800-295-9953  
(Fires within one mile of BLM land are considered a threat to BLM.)**

- For all wildland fires on or threatening BLM administered lands, please call:  
Rawlins Interagency Dispatch Center 800-295-9953  
(Fires within one mile of BLM land are considered a threat to BLM)

- For all wildland fires on or threatening Forest Service land, or on private **OR STATE** lands, please call:  
Casper Interagency Dispatch center 800-295-9952  
(Fires within one mile of FS land are considered a threat to FS.)
- For private land fires, call Laramie Area Records and Communication (LARC), please call: 721-2526 / 911

A fire report shall be submitted to the protecting agency within 15 days after the fire is declared out. BLM policy is that all fires will be reported within 5 days after the fire is declared out.

## 2. INITIAL ATTACK

**If a party to this agreement is the first to arrive on scene, they will assume command of the incident and remain in command until: (1) they are relieved of command by an IC from the jurisdictional agency, (2) they turn over command to a higher qualified IC, (3) Unified Command is put into place if a multi-jurisdictional fire, or (4) the fire is determined to be out.**

## 3. ESCAPED FIRES

Fires that Escape/Threaten to Escape Initial Attack. Field personnel, involved in fire suppression action, will contact the other protecting agencies as soon as possible after a fire escapes or threatens to escape initial attack near intermingled ownership (defined as different ownership within 1 mile of the fire or it is anticipated that other ownerships may be involved) and a Unit Administrator Group will be assembled by the initial attack agency/county to represent the protecting agencies involved with that fire. A cost share agreement will be discussed.

- a. Unit Administrator Group Guidelines  
**Unit Administrator Group may be assembled under the following circumstances.**
  - A wildland fire escapes or threatens to escape initial attack and cannot be successfully managed.
  - **The fire is to be determined at a Type III or higher complexity level**
  - Control is not anticipated before the next burning period.
- b. The Unit Administrator Group's function is:
  - **To participate in the development and approval of a Wildland Fire Situation Analysis (WFSA) for State and Private, or a DAR**

**(Decision Analysis Report) from WFDSS (Wildfire Decision Support System) for Federal agencies.**

- **To participate in development and approval of the wildland fire decision documents developed for managing a fire incident.**
  - **To recommend to the Line Officer(s), the management level (Type 1, 2, or 3) and command structure (Unified or single IC) appropriate for the incident. This recommendation will be based upon complexity, ownership, values to be protected, and qualifications of personnel.**
  - To prepare a Delegation of Authority for Line Officer signature.
  - To act as the agency representative for the respective agency.
  - To agree on management actions needed.
  - To agree on the organizational management actions and command structure for the incident.
  - After eight (8) hours, initiate a written cost share agreement for Line Officer(s) approval with signatures (Example - Exhibit H in the **Wyoming Mini Fire Mobilization Plan**) prior to end of the fire.
  - To agree to all expenditures whenever the suppression plan must be modified including mop-up, rehabilitation and patrol after demobilization of the fire.
- (1) The Incident Commander/Unified Command will provide the Unit Administrator group with an estimated fire cost daily.
  - (2) The Incident Commander/Unified Command and the Unit Administrator Group will reach mutual agreement when the fire situation is such that the group can be demobilized. On fires involving lands of more than one ownership or jurisdiction, the Incident Commander/Unified Command will be recommended by the Unit Administrator Group to the line officers based upon complexity, ownership, values to be protected and qualifications of personnel.

For a list of the designated representatives for purposes of a Unit Administrator Group see the directory.

#### 4. FIREFIGHTER QUALIFICATIONS

Three levels of expertise are recognized.

- a. Within jurisdiction the qualifications for local resources utilized for fire suppression will meet local standards.
- b. **Outside of a protection agency's jurisdiction engine dispatches will consist of a minimum of one NWCG 310-1 qualified Engine Boss (ENGB) and a minimum of one NWCG 310-1 qualified Fire Fighter Type 2 (FFT2) or Engine Operator (ENOP) per engine or meet agency policy if agency policy exceeds this Certification will be the responsibility of the sending agency/county.**
- c. All county and state Unit Leader positions and above will be NWCG 310-1 qualified. Certification is the responsibility of Wyoming State Forestry Division/agency.

#### F. AVIATION PROCEDURES

##### RETARDANT

1. Aerial retardants may be used with prior approval of the protecting agency unless otherwise specified under "Special Management Considerations" of this plan. For list of contacts for retardant usage approval see the directory.
2. During initial attack aerial retardants may be paid by the requesting agency/county if prior approval has not been obtained through a cost share agreement.
3. Air to air and air to ground frequencies with designated ground contacts need to be established with **CPC. All agencies should utilize the standard Air to Ground naming convention adopted by the Rocky Mountain Area in 2011.**
4. **Aircraft under contract with Wyoming State Forestry Division must be dispatched through CPC. CPC will coordinate aircraft dispatches with the Wyoming State Forestry Division Duty Officer.**

#### G. ENFORCEMENT

##### RESTRICTIONS AND CLOSURES

Fire Restrictions and/or Closures will be coordinated between the parties to this agreement to include initiating, implementing, and lifting. Reference Wyoming Interagency Fire Restriction Plan

## FIRE INVESTIGATIONS

Each agency/county is responsible for investigating and taking appropriate law enforcement action for all fires which appear to have been **human**-caused on lands under their jurisdiction. The initial attack Incident Commander will take all responsible precautions to preserve evidence found.

## BLM INVESTIGATIONS

**BLM is required to ensure trespass actions are initiated and documented to recover cost of suppression activities, land rehabilitation, and damages to the resource and improvements for all human-caused fires that ignite on BLM jurisdiction where liability can be determined. All suspected human caused BLM fires will be investigated by a qualified NWCG Fire Investigator (INVF).**

### H. FUEL MANAGEMENT AND PRESCRIBED FIRE CONSIDERATIONS:

1. Fuel management and prescribed fire projects will be coordinated with the parties to this agreement.
2. Wildland fire(s) resulting from escaped prescribed fires (or wildland fire use for resource benefits) at the direction or under the supervision of one of the agencies/county to this agreement shall be the responsibility of that agency/county. All suppression costs exclusive of reciprocal periods shall be borne by the responsible agency/county. The responsible agency on federal lands shall be the jurisdictional agency. An agency/county may take appropriate suppression action when lands under its protection responsibility are involved in or threatened by the fire. Such suppression action may be taken on its own initiative or at the request of the responsible agency/county. An agency/county may take appropriate suppression action, at the request of the responsible agency/county, when lands under its protection are not involved in or threatened by the fire. The responsible agency/county shall reimburse the other agency/county for all suppression costs incurred in accordance with this clause.
3. Escaped prescribed fires ignited by individual(s) not party to this agreement will be considered as wildland fires requiring suppression action under the terms and conditions of this agreement.
4. Agencies/counties agree to share and reimburse, according to the rates established in Exhibits C, D, E and F **in the Wyoming Mini Fire Mobilization Plan** for resources used on prescribed fire projects, based on availability, qualifications, and need.

### I. REIMBURSEMENTS BY PROTECTING AGENCY:

1. An itemized bill (for example see Exhibit B **in the Wyoming Mini Fire Mobilization Plan**) for reimbursable services will be provided to the protecting agency within 60 days after the fire is declared controlled. If the total cost is not known at the time of

initial billing, a partial bill, so identified, may be submitted. A final bill, so identified, will be issued within six months after the fire is declared controlled. Bills will contain the protecting agency's fire number and name, resource order number, **the number of hours, cost per hour**, and inclusive dates. Billing for incidents within the State of Wyoming will be submitted to the local protecting host unit. Send bill to the Identified Agency Administrator as outlined in this agreement. **The lead agency will be responsible for the final fire financial packet and coordination of payments. Only original invoices will be utilized for payments.**

2. In situations where a burn area encompasses land under the protection or jurisdictional responsibility of more than one agency/county, a cost share agreement will be implemented **and signed** before billing.
3. Nothing herein shall prohibit any agency or county, on its own initiative and without notifying the protecting agency and without reimbursement, from going upon lands known to be protected by another agency or county to engage in suppression of wildland fires, when such fires are a threat to lands within that agency's or county's protection responsibility.
4. Salaries for Agency/County employees will be paid at the established rate in effect at the time of the fire.
5. Salaries for other than Agency/County employees will be applicable FF rate established annually for Wyoming. (Exhibit D **in the Wyoming Mini Fire Mobilization Plan**)
6. All Agency and County equipment will be reimbursed at the rates established in Exhibits C **in the Wyoming Mini Fire Mobilization Plan**.
5. All supporting agencies/counties shall be subject to examination and audit for three (3) years after final payment.

J. GENERAL PROCEDURES:

1. This plan becomes effective on the date signed by each agency/county. It may be terminated upon 20 days written notice from one party to the other.
2. This plan will remain in effect until updated or terminated. Target date for annual update is April 15. Wyoming State Forestry Division will take the lead in getting this plan prepared annually.
3. **Casper Interagency Dispatch Center**  
**The agency/county agrees to participate in the requirements of the CPC AOP. The agency/county gives authority to the CPC to provide the services required in support of the centers charter and operating plan. For specifics, see the CPC AOP.**

K. OTHER CONSIDERATIONS:

1. Frequencies – When responding or assigned to an incident the County is authorized to operate on Agency Net...radio frequencies assigned to the Agency. See attachment A.
2. Interagency Dispatch Centers  
Casper Dispatch (MBNF - and private land **AND STATE LAND, USFWS**)  
Rawlins Dispatch (BLM only)

The agency/county agrees to participate in the neighborhood dispatch system. The agency/county gives authority to the dispatch center to provide the services required in support of the centers charter and operating plan. For specifics, see the dispatch center plan.

3. Items you have already received with previous AOP's that you should attach to the Current Annual Operating Plan.  
Casper Dispatch Plan

GLOSSARY

***ACEC:***

**Areas of Critical Environmental Concern**

***Agency:***

State and federal cooperators.

***BLM:***

**Bureau of Land Management**

***BOR:***

**Bureau of Reclamation**

***County:***

County and local fire service entities.

***County and local fire service entities:***

County Fire Organizations, City Fire Organizations, Joint Powers Boards, or Fire Protection Districts.

***Initial Attack:***

The control efforts taken by resources which are the first to arrive at the incident.

*Jurisdictional Agency:*

The Agency or County which has overall land and resource management and/or protection responsibility as provided by Federal or State law.

*Line Officer:*

Individual who has been delegated full authority to make decisions on all matters affecting that agency\county's participation at the incident.

*Prescribed Fire:*

The planned and/or permitted use of fire to accomplish specific land management objectives.

*Protecting Agency:*

The Agency or County responsible for providing direct wildland fire protection to a given area pursuant to the Wyoming Interagency Fire Management Agreement.

*Protection Area Maps:*

Official maps of the annual operating plans. Example: Maps showing protection area responsibilities.

*Reciprocal Fire Protection:*

A Supporting Agency will take initial attack in support of the Protecting Agency. The Protecting Agency will not be required to reimburse the Supporting Agency for costs incurred following the initial dispatch of any ground resources to the fire for the duration of the reciprocal period as defined in this plan, not to exceed 24 hours.

*Reimbursable Fire Protection:*

Fire suppression resources will be paid for by the requesting Protecting Agency per the conditions in the Wyoming Interagency Fire Management Agreement, Wyoming Interagency Cooperative Fire Management and this Annual Operating Plan.

*Suppression:*

All the work of confining and extinguishing a fire beginning with its discovery through the conclusion of the incident.

*Supporting Agency:*

An Agency or county providing fire suppression or other support and resources to the Protecting Agency.

*Unit Administrator Group:*

A group consisting of two or more individuals assigned administrative responsibilities to make coordinating decisions and recommendations within the framework of the Annual Operating Plan.

*Wildland Fire (Unplanned Ignition):*

Any non-structure fire, other than prescribed fire, that occurs in the wildland.

***Wildland Fire Decision Support System (WFDSS):***

**This system assists fire managers and analysts in making strategic and tactical decisions for fire incidents. It has replaced the WFS (Wildland Fire Situation Analysis), Wildland Fire Implementation Plan (WFIP), and Long-Term Implementation Plan (LTIP) processes with a single process that is easier to use, more intuitive, linear, scalable, and progressively responsive to changing fire complexity. The end product of WFDSS is a DAR (Decision Analysis Report).**

***Wildland Fire Situation Analysis (WFS):***

A decision making process that evaluates alternative management strategies against selected safety, environmental, social, economical, political, and resource management objectives as selection criteria.

***Wilderness Study Area (WSA):***

**A roadless area which has been found to have wilderness characteristics.**

## **ALBANY COUNTY AOP DIRECTORY**

Listed below are the Agency and County positions in order of authority for decisions within each Agency For purpose of notification, request of assistance, approval of retardant or equipment use, and for representatives for the Unit Administrator Group use the call list which is arranged according to the order each Agency and County wants their representatives called. Each Agency and County representative will be responsible to follow the proper procedure for their Agency. **Federal firefighter ICS can request retardant on Federal lands without approval.**

**BLM Lands - District Fire Management Officer or their designated representative.**

**State Lands - Assistant State Forester - Fire Management/District Forester/or their designated representative.**

**National Forest Lands - District Ranger/Forest Fire Management Officer or their designated representative.**

**BIA Lands - Fire Management Officer or their designated representative.**

**National Park Service Lands - Fire Management Officer/Chief Ranger or their designated representative.**

**U.S. Fish & Wildlife Service Lands - Manager or their designated representative.**

**Private Lands - County Fire Warden, Assistant Fire Warden, County Commissioner/ District Fire Board/ or their designated representative.**
